

West Lake Energy Corp. is a privately owned, intermediate producer with core assets located in the Lloydminster, Provost and Brazeau areas. West Lake's strategy is to grow its production base in all its heavy, medium and light areas through organic drilling complemented with focused acquisitions. West Lake has applied advanced drilling and completion techniques, which has allowed its wells to achieve compelling economic returns at sustained low oil prices. West Lake continues to execute on a material multi-year drilling program.
